Welcome

NATIONAL SHOWCASE & JUDGING

Welcome to the national finals of the 2019 Australian Technologies Competition. Through this Competition, that runs for seven months each year, we identify, accelerate and connect Australia's highest potential technology scaleups.

In July, we announced 33 semi finalists from a pool of 206 entries. Each semi-finalist was invited to take part in a two-day Growth Masterclass that helped them to rethink and re-calibrate their business plans and growth strategies.

These strategies and a Concise Business Plan were then submitted to our panel of 14 Judges. Sixteen finalists have now been selected, who are here today to present their businesses to potential partners, investors, our Judges and most importantly – to you as an audience.

The Australian Technologies Competition wishes to thank our core partner - The **Department of Industry, Innovation and Science** in conjunction with the Victorian Government - namely the **Department of Environment, Land, Water and Planning (DELWP)** and the **Department of Jobs, Precincts & Regions (DJPR)**. We're delighted to spotlight Melbourne as a growing global hub for innovation! Thank you for making us welcome.

We also have a number of other key sponsors to thank, including **Energy Australia, Bird&Bird, FB Rice**, alongside the Federal Government's Industry Growth Centres - namely, **METS Ignited, AustCyber, MTPConnect, NERA** and **FIAL**. Together, we are cultivating an ecosystem to elevate and celebrate Australia's best emerging companies with high growth potential.

Welcome

NATIONAL SHOWCASE & JUDGING

It's with great privilege that we also welcome a number of overseas guests this year from four corners of the globe. A special welcome to our guests from **CLP Hong Kong, AirAsia, Elbit Systems, Texas Medical Centre, Banpu** and **AT&T**. We're delighted to share an insight into Australia's thriving tech ecosystem.

Now... it's time to sit back and enjoy the show, with a special welcome by the **Hon. Lily D'Ambrosio**, Victoria's Minister for Energy, Environment & Climate Change.

During the day, we encourage you to provide feedback electronically on each pitch. Be sure to have your say by referring to page 13 of the Program.

As this year's Competition draws to a close, we also wish to acknowledge the time and contribution of our mentors, judges, guest speakers, marketing partners and all those involved in supporting this ecosystem. Your time, expertise and input has helped many companies make significant progress; thank you.

Last but not least, a message of thanks to ATC Finalists for electing to be part of this evaluation and mentoring process; and to you our guests, for sharing your day with us in support of the Australian Technologies Competition. Here's to Australia's next wave of game changers!

Pat Mooney

Chairman, Impact Tech Ventures

Tuesday 29 October

NATIONAL SHOWCASE & JUDGING

09:00 **Registration Opens**

09:30 **Welcome**

Patrick Mooney - Chairman, Impact Tech Ventures

09:40 **Keynote Address**

The Hon. Lily D'Ambrosio -

Victorian Minister for Energy, Environment & Climate Change

10:00 **Entrepreneurs Panel**

Do's and Dont's for Australian Scaleups - Navigating the challenges of global growth

- Giles Bourne - Managing Director, BluGlass Limited
- Tracey Cooper - Executive Chairman, Rome2rio
- Dr Anabela Correia - CEO, LiVac
- Dr Vikram Sharma - Founder & CEO, QuintessenceLabs

11:00 **Networking Break**

11:30 **Pitching by Finalists**

Circular Economy & Global Social Impact

- OPEC Systems - removing PFAS contamination from water
- ASPIRE - online marketplace to manage waste
- Unpackaged Eco - circular packaging as a service
- Stormseal - securing storm-damaged properties

12:30 **Lunch**

Tuesday 29 October

NATIONAL SHOWCASE & JUDGING

13:00 Pitching by Finalists

Smart Cities & Cyber Security

- PAM - intuitive navigation platforms
- Ybern - Ticketless parking
- Huntsman Security - cyber security health check
- SecureStack - securing the cloud

14:00 Pitching by Finalists

Energy, Mining & Advanced Manufacturing

- PING - monitoring system for wind turbines
- Florence Energy - converts mixed waste plastics into petroleum
- MyPass Global - streamlines workforce resourcing and compliance
- Universal Field Robots - autonomous field robots

15:15 Networking Break

16:00 Pitching by Finalists

Food & Agribusiness

- InFarm - drone to tractor weed protection platform
- AgEtal - Rapid molecular diagnostics for farmers

16:45 Pitching by Finalists

Medtech & Pharma

- Tournicare - blood pressure monitoring device
- Navi Medical Technologies - ECG tip location system

17:30 End of Pitching Day

Guest Speaker

THE HON. LILY D'AMBROSIO MP

The Hon. Lily D'Ambrosio MP

Minister for Energy, Environment & Climate Change

Lily D'Ambrosio is a member of the Australian Labor Party and has represented the electorate of Mill Park in the Victorian Legislative Assembly since 2002. In 2016 she became Minister for Energy, Environment and Climate Change and Minister for Suburban Development, and on the recent return of the Andrews Labor Government she was appointed Minister for Energy, Environment and Climate Change and Minister for Solar Homes.

Minister D'Ambrosio is a leader in action on climate change, renewable energy and energy efficiency in Australia. She oversaw the passage of the Climate Change Act, Victoria's landmark climate legislation which saw it become the first Australian state to legislate in line with the Paris Agreement for net zero emissions by 2050. The Minister has also overseen an overhaul of the Environmental Protection Act 1970, refocussing the regulatory body to focus on the prevention of harm to human and environmental health.

She remains the only woman responsible for energy across the nine national and sub-national governments in Australia, and is a leading advocate for a modernised Australian energy system that facilitates a smooth transition into a clean, reliable and affordable energy future.

Panel Speakers

MEET THE ENTREPRENEURS

Giles Bourne

Managing Director, BluGlass Limited

Giles is a senior executive with over 20 years of international business development experience gained in the clean-tech, technology and manufacturing sectors. He is a specialist in developing offshore business opportunities, securing inward expansion investment, setting up domestic and international partnerships, JV's and licensing deals for Australian corporations.

Giles' focus at BluGlass is to provide leadership as well as developing sales and marketing structures to support the commercialisation of BluGlass' LED and solar technology. During his time at BluGlass, Giles has lead the team to secure a strategic partnership with global semiconductor equipment company SPTS Technologies, secured more than \$25M in Government and Private Investment and supported the technology team to its proof of concept milestone.

Tracey Cooper

Executive Chairman, Rome2rio

Tracey is a long standing member of Melbourne Angels with a career that has covered the spectrum of scale-up experience from founder/CEO through to non-executive director/chairman and across a variety of industries. She is currently the Deputy Chairman on Rome2rio and understands the challenges and opportunities with a global scale-up opportunity from a Melbourne base operating in the modern tech-based environment. She has been a full time company director since 2007 and held various government and private directorships.

Panel Speakers

MEET THE ENTREPRENEURS

Dr Anabela Correia **CEO, LiVac**

Anabela is the CEO of LiVac, an Australian surgical devices company and Director of Inner Maven, a medtech commercialisation company. In 2017, LiVac won the Australian Technologies Competition Medtech & Pharma Award as well as being named the overall winner. Anabela is both an experienced CEO and entrepreneur, having worked in teams to secure capital, deliver technologies to market and negotiate successful agreements with multinational device and pharmaceutical companies.

Dr Vikram Sharma **Founder & CEO, QuintessenceLabs**

Recognising the potential of quantum cybersecurity, Vikram Sharma conducted award-winning research to mature this science at the Australian National University (ANU). He founded and leads the Canberra-headquartered company QuintessenceLabs, which is now at the forefront of the quantum cybersecurity industry. QuintessenceLabs was named a 2018 Technology Pioneer by the World Economic Forum.

2019 Finalists

MEET OUR NATIONAL FINALISTS

AGETAL (QLD)

Rapid molecular diagnostics
for farmers

ASPIRE (VIC)

Online marketplace to manage
waste

Meet the Judges

WHO TO IMPRESS

Lyle Abel

Partner, Bird&Bird

Lyle has practised corporate, commercial and property law for over 20 years in some of the leading law firms in both Australia and South Africa. Lyle's practice has included advising government entities and large, medium and small corporations.

He has extensive experience in advising in both commercial and property transactions, including private equity and venture capital investment, the acquisition and disposal of business assets and companies, due diligence investigations, incorporated and unincorporated joint ventures, franchise arrangements, and various forms of commercial contracts.

Lyle's extensive property law experience extends to commercial conveyancing, commercial and retail leasing, land acquisition claims, and property development transactions. Lyle has a particular expertise in all property aspects of major business acquisitions and sales.

<https://www.linkedin.com/in/lyle-abel-23a6549/>

Giles Bourne

Managing Director, BluGlass Limited

Giles is a senior executive with over 20 years of international business development experience gained in the clean-tech, technology and manufacturing sectors. He is a specialist in developing offshore business opportunities, securing inward expansion investment, setting up domestic and international partnerships, JV's and licensing deals for Australian corporations.

Giles' focus at BluGlass is to provide leadership as well as developing sales and marketing structures to support the commercialisation of BluGlass' LED and solar technology.

During his time at BluGlass, Giles has lead the team to secure a strategic partnership with global semiconductor equipment company SPTS Technologies, secured more than \$25M in Government and Private Investment and supported the technology team to its proof of concept milestone.

Meet the Judges

WHO TO IMPRESS

Alistair Coulstock

Director, Action Sustainability Asia Pacific

Alistair is a leading expert on the subject of sustainability, and director at Action Sustainability Asia Pacific. His expertise spans both sustainable organisational change and sustainability in the built environment. His recently published book 'The Conscious business – How to achieve Purpose with Profit' focuses on assisting businesses through the transition of from having a single focus on money and profit, to a more purpose-driven organisation.

Alistair's property and infrastructure experience spans strategy, design and engineering in outdoor spaces, buildings, towns and cities. He has significant experience developing and facilitating leading edge sustainable outcomes for many clients. Alistair has an inherent talent for understanding the importance of creating places for people whilst keeping front of mind our reliance on the environment.

<https://www.linkedin.com/in/alistaircoulstock/>

Melina Georgousakis

Founder, Franklin Women

Melina is a research scientist in vaccine development and policy, a social enterprise founder and advocate for innovation and equality in the sciences.

She completed her Bachelor of Science degree at the University of Queensland followed by honours and PhD at The Queensland Institute of Medical Research where she researched novel approaches to vaccine design and delivery. After a sabbatical in India, Melina became interested in the intersect between product development and use, and joined the policy team at National Centre for Immunisation Research and Surveillance which provides technical advice to the Australian Commonwealth Department of Health on Australia's immunisation policies.

Melina is a passionate advocate for collaboration, diversification and innovation within the health and medical research sector, as well increasing the representation of women in leadership positions, both with the aim of maximising the economic and health outcomes from research. She is the founder a social enterprise, Franklin Women, which aims to create a health and medical research sector where women thrive.

<https://www.linkedin.com/in/melinageorgousakis/>

Meet the Judges

WHO TO IMPRESS

Phil Hodgson

CEO, Calix Limited

Phil has a technical and commercial background from a successful career with Shell, where for over 14 years he developed significant depth of experience across all key sectors of the downstream oil industry including refining and supply, marketing and sales, pricing strategy, risk management, corporate strategy, and mergers and acquisitions.

From 2007 to 2013, Phil ran his own consultancy providing project development, commercial, M&A, and management expertise to several sectors including LNG, biofuel, clean coal, geothermal energy, building products, logistics and fast-moving consumer goods.

Phil holds a Bachelor of Chemical Engineering with Honours (University of Sydney) and a PhD in Chemical Engineering from the University of NSW.

Phil joined Calix as CEO in 2013, was appointed a Director in 2014, and is a member of Calix's Technology Committee.

<https://www.linkedin.com/in/phil-hodgson-1111194/>

Rachel Hooke

Partner, FB Rice

Rachel is a partner at FB Rice and heads both the medical technology and China business teams. As a qualified patent attorney, Rachel has over 20 years of experience advising her clients in all matters related to intellectual property. From drafting and prosecuting multi-jurisdictional patent families to providing high level strategic advice, clients appreciate Rachel's experience and ability to see the bigger picture to ensure any IP strategy aligns with their commercial goals.

Rachel is also a keen angel investor and a member of the Scale network, an organisation that provides early investment to female-led businesses. Her experience as an investor gives further insights into the pressures and hurdles facing clients when it comes to growing their innovation from an initial idea to a viable business.

<https://www.linkedin.com/in/rachel-hooke-452b535/>

Meet the Judges

WHO TO IMPRESS

Leanne Kemp

Founder & CEO, Everledger

Leanne Kemp is the Founder & CEO of Everledger. Using her extensive background in emerging technologies, business, jewellery and insurance, through Everledger Leanne is pushing boundaries to address real-world challenges. Using blockchain technology, Everledger is driving transparency and trust along global supply chains to ensure the provenance of valuable assets.

With a rich history in innovation, Leanne previously founded three Australian startups including Absoft Queensland, Fastcards Pty Ltd. and the Great Australian Survey Company. She has created various solutions to streamline inventory and supply chain operations. Leanne's entrepreneurial success has led to her appointment as the Queensland Chief Entrepreneur.

Maureen Murphy

Commercialisation Adviser, Accelerating Commercialisation

Maureen Murphy has a strong commercial background with over 25 years experience in strategic business development of innovative new technologies. She has held senior executive positions (CEO, Managing Director, Director) in globally oriented ICT industries including telecommunications, satellite communications and digital media.

Maureen has managed businesses from early stage through to exit, and has invested in, co-founded, and held contract senior positions with a wide range of technology based businesses, including start-up companies in ICT, biotechnology, and renewable energy.

While experienced in all aspects of new business development, Maureen has particular expertise in strategy execution; clearing the path to successful commercialisation by translating concepts and plans into actions and overcoming the obstacles that hinder achievement of strategic goals.

Maureen holds a Master of Business and Technology degree (MBA Technology) from the Australian Graduate School of Management, sits on the Advisory Board of the Centre for Innovation and Entrepreneurship at the UNSW Australia School of Business, and is a Member of the Australian Institute of Company Directors.

<https://www.linkedin.com/in/maureenmurphy3/>

Meet the Judges

WHO TO IMPRESS

John O'Brien

Partner, Deloitte

John O'Brien is a renewable energies partner within Deloitte's firm's energy, resources & industrials group. A renewable energy and clean technology specialist, John has over 20 years' experience in the Australian energy sector advising governments in Australia, Korea and China, industrial leaders in the water, oil and gas and energy sectors on clean energy and technology innovators bringing the next generation of clean technology solutions to market.

Before basing himself in Adelaide, John's career included oil and gas and engineering roles in Scotland, London and Syria. In Australia he joined what would become Origin Energy where he worked in national strategic development, M&A and corporate investment positions.

In 2007, John founded and established Australian CleanTech, a strategic and corporate advisory firm with a primary focus on energy and environmental sector technologies. He also founded the Australian Technologies Competition in 2011, providing a platform to mentor and promote Australia's most innovative tech companies.

<https://www.linkedin.com/in/john-obrien-cleantech/>

Melissa Osborne

CTO, DELL Technologies

Melissa Osborne is the Chief Technology Officer at Dell Technologies in Australia and New Zealand. Based in Canberra, she is responsible for bringing the breadth and depth of the Dell Technologies portfolio to enable customers on their digital transformation journeys.

Melissa joined Dell EMC in 2018, bringing with her a strong background in security risk and compliance across physical, personnel and cyber security, and extensive knowledge in IT products and services, including cloud computing.

Prior to joining Dell EMC, Melissa spent 24 years working for the Department of Defence, starting in the Royal Australian Navy, moving into the Australian Signals Directorate (ASD). As an ASD executive at the Australian Cyber Security Centre (ACSC) she was the certifying authority for gateways, cloud computing, and product evaluations and lead the Information Security Registered Assessors Program (IRAP).

<https://au.linkedin.com/in/melissa-osborne-661b0ba0>

Meet the Judges

WHO TO IMPRESS

Ben Waters

Presync

After 17 years at GE, Ben is the Co-founder of PreSync, member of the Futureye Community of Practice, Judge and Mentor for the Australian Technology Competition, and provides strategic advice to a number of local startup cleantech firms.

Most recently, Ben led GE's ecomagination initiative for Australia and New Zealand. Ecomagination is GE's sustainable business strategy which includes cleantech R&D, investment, and footprint reduction. Ben also conceived and led GE's 5-year, \$20 million global strategic technology alliance with CSIRO.

Previously Ben spent 11 years in GE Aviation initially as a field service engineer supporting the GE F404 engine powering the RAAF F/A-18 Hornet fleet, then as Sales Director and Country Manager for New Zealand and Australia. He led GE's successful bid to power the Qantas Group's Boeing 787 Dreamliner fleet of up to 115 aircraft.

<https://www.linkedin.com/in/bdwaters/>

John Williams

Head of Admissions, National Stock Exchange

John Williams is an experienced financial services executive who values innovation and collaboration, leading, developing and coaching others.

John excels in stakeholder engagement, problem solving and driving cultural change in a highly regulated environment. His leadership is characterised as servant leader, stakeholder advocate, an effective and passionate people leader and coach, and champion of cultural change to transform organisations.
